EDUCATION

Applied Computer Science & Computer Programming

Odisee University College
– Brussels

2018 – 2021

CERTIFICATIONS

- Web Design – FreeCodeCamp
- Python – Udemy

PROFESSIONAL EXPERIENCE

WEB DEVELOPER

Splendid Research – Hamburg, Germany

10/2021 – 09/2025

- Developed and maintained responsive web applications using **HTML, CSS, and JavaScript**
- Led the **relaunch of a panel portal**, including UI improvements and style guide creation
- Implemented **A/B testing systems** to optimize user engagement and conversion
- Improved **performance and page load speed by 30%** through code optimization
- Collaborated closely with **product managers and marketing teams** to deliver business requirements
- Ensured high usability through **UX-focused testing and improvements**
- Maintained documentation and improved internal development processes

SOFTWARE DEVELOPER (INTERNSHIP)

Addvals – Brussels, Belgium

10/2020 – 06/2021

- Contributed to building applications using **Elsa Workflows**
- Assisted in implementing **security features and assessments**
- Developed and presented an **MVP to stakeholders**
- Supported A/B testing implementation for web applications

KEY SKILLS

Frontend

- React, TypeScript, JavaScript (ES6+)
- HTML5, CSS3, Tailwind CSS
- State Management (React Query)
- Storybook, UI Component Design

Backend

- C#, .NET Core Web API
- REST API Design
- Entity Framework Core
- SQL Server

Tools & Practices

- Git, CI/CD Pipelines
- Agile / Scrum
- Clean Code & SOLID Principles
- Debugging & Performance Optimization
- A/B Testing

LANGUAGES

- Turkish – Native
- English – Full Professional
- Dutch – Full Professional
- Bulgarian – Professional
- French – Basic
- German – Basic

POWER APPS DEVELOPER (INTERNSHIP)

Scholengroep – Brussels, Belgium

12/2019 – 03/2020

- Built internal tools using **Power Apps and SharePoint**
- Automated workflows with **Power Automate**
- Improved application performance and usability
- Delivered business-focused solutions tailored to user needs

FEATURED PROJECT

TASKMASTER – FULL STACK TASK MANAGEMENT SYSTEM

A kanban-style task management application built with **React, TypeScript, and .NET Core**, featuring real-time UI updates and relational data handling.

Key Features:

- Drag & drop task management (Kanban board)
- Subtask system with real-time progress tracking
- Optimistic UI updates and API synchronization
- Project-based filtering
- Toast notifications and interactive UI

Technical Highlights:

- Designed full-stack architecture (React + .NET API)
- Implemented relational data flow (Tasks ↔ Subtasks)
- Solved foreign key and async sequencing issues
- Structured scalable frontend using feature-based architecture
- Integrated Storybook for reusable UI components
